

We enable businesses to utilize best-of-breed recruiting expertise and skills to identify hard-to-find resources that are crucial to their ongoing business success and growth.

CBTS Professional Services provide highly skilled and industry-certified resources to meet businesses' needs relating to on- or off-site IT resources. These resources can be obtained in three ways

- As an hourly contract resource
- As a contract-to-hire resource—typically six months
- As a direct placement resource with CBTS assisting your internal HR efforts

Solution Options

Project-based Resources

Resources are available across multiple technologies to assist with short- and long-term project-based work. They are engaged initially to assist with the design, engineering and installation needs. The customer is billed either on an hourly or fixed price basis.

Staff Augmentation

CBTS has ten full-time professional recruiters who work with customers to meet their staffing needs. We match customer needs with the appropriate IT talent by searching our extensively proprietary and subscribed databases. We use the same diligence to pre-screen all resources, short-term contractors or permanent hire before they are presented to the customer for review.

Customer Benefits

- Eliminate full-time employee benefit costs for short-term employment needs
- Implement new technologies utilizing industry best practices
- Evaluate candidate performance prior to hiring
- Employ a flexible staffing model based on overall company performance
- Offload the burden of resource management

Why CBTS?

- Many contractual options for customers
- 100+ years of combined technical recruiting experience
- 300+ current consultants across all areas of IT on staff, readily to be deployed or repurposed
- A database of 40,000+ potential consultants with diverse skill sets
- Unique consultant care program to provide management oversight to each consultant on site
